PROFESSIONAL SUMMARY

I am dedicated to delivering high-quality software and to create beautiful, accessible applications. I am excited to jump into new opportunities and am committed to learning new technologies. As an accountant, I am eager to bring my financial expertise to the world of software development.

PROJECTS

FitCal (https://fitcalxxii.herokuapp.com/**)**   Repository: https://github.com/Robdom87/FitCal

Handlebars, Node.js, Express.js, Connect Session Sequelize, Chart.js, Bulma, SQL   *August 2022- October 2022*

- Define, design, and implement a custom nutrition table application using an MVC framework, pulling real data from a third party API and user input to estimate their dietary intake.
- Constructed routing to create, read, update, and delete users, posts, and reactions within a SQL database via URL requests following the REST API framework to store workout information and feed our data visualization tool.

NFTaxes Inc.

React.js, Mongoose, Alchemy API, Blockchair API, PDF-LIB   *September 2021- October 2022*

- Led product development and collaborated with the team to build and implement the foundational infrastructure for an automated NFT Capital Gains Tax Calculator, resulting in over 150 sales.

EXPERIENCE

Intuit   **San Diego, CA**

Tax Analyst Programmer   *August 2023- Present*

- Maintaining various existing state tax programs by ensuring offering is in compliance with tax agencies via research of state tax regulations and coordinating with our team's tax analyst and implementing the necessary updates via code and using proprietary internal software.
- Collaborating in busy 50+ people repositories by abiding standard practices and procedures such as creating pull requests, testing locally, using locking mechanisms, and constant communication within our cross-functional team to ensure no conflicts in work.
- Effectively contributing to the agile/scrum team by working on all and any available stories including those outside my requirements such as submitting test clients for electronic filing approval, and seeking guidance from more experienced team members, working on multiple; resulting in the team's velocity to increase substantially from the prior year.

The BIOClean Team   **San Diego, CA**

Senior Accounting Associate   *January 2023- June 2023*

- Managed and expedited the accounts receivable process from end to end by streamlining the preparation and collection of invoices with standardized invoice templates and automated collection reminders/calls; dropping the outstanding invoice amounts by over +200 thousand dollars.
- Supported account payable processes by preparing expense reports, relaying reimbursement amounts to accounting managers, and compiling relevant receipts and bills.

NFTaxes Inc.   **Los Angeles, CA**
Co-Owner   *September 2021- October 2022*
- Researched crypto currencies and non fungible token types, transactions, and tax implications and compiled findings in free NFTaxes guide; resulting in more attention in our product
- Developed working proof of concept for NFT capital gain calculator using a google sheets and csv's with on chain wallet data and collaborated with development team in implementing the foundational infrastructure in the automated NFT Tax Calculator; resulting in solid product that got 8000 of sales in 5 days of being up.
- Managed the financial health and regulatory compliance of the company by maintaining books, creating financial statements, safeguarding the company account, filing at the state and federal level, and budgeting.

PricewaterhouseCoopers LLP   **Los Angeles, CA**
Tax Associate   *January 2021- April 2022*
- Researched, calculated, and prepared returns, quarterly estimates, and partner K-1's for clients of varying size, business structure, and complexity to ensure tax compliance at the state and local level.
- Managed 400+ state tax notices on major clients by communicating with state tax departments and implementing new firm technologies to effectively resolve outstanding notices; reducing the amount of outstanding balance by over 100 thousand dollars.
- Propagated firm technologies migrating clients and internal teams onto new more efficient tools and automations and in a supporting role by drafting documentation, creating feature proposals, and reviewing updates; expanding teams capabilities in crucial points of the engagement.

Tax Intern   *June 2018-August 2018, June 2019-August 2019*
- Developed a reusable Tableau dashboard that visualized employee availability gaps and simplified the allocation of project hours amongst teams; resulting in improved employee utilization rates and over 150 hours of time saved yearly within the resource management department.

Domar Maintenance and Repair   **San Diego, CA**
Administrative Lead   *July 2016-2022*
- Developed business online presence by leveraging a newly deployed business website (https://domar-grm.com/), Google Business, a business account with a matchmaking web service and search engine optimization which increased proposals distributed monthly by 50%.
